LENS MARKING

Z87+ Impact rated for Plano product - tested and approved to ANSI Z87.1-2010, American National Standards Institute's Standard for Eye and Face Protection.

LENSES

- 2mm polycarbonate
- Anti-scratch/Anti-fog coating on both sides of lens: Clear, Smoke , Twilight

TECHNOLOGIES

TWILIGHT

The new B-Twilight technology offers the advantages of ESP with a double anti-fog coating (on both sides of the lenses) to prevent fogging in the most challenging conditions. Designed and used in low light conditions, it improves contrast. Its light transmission rate is perfect for outdoors, particularly early morning and late evening. B-Twilight filters 76% of blue light.

FRAME MARKING

Z87+ Impact rated for Plano product - tested and approved to ANSI Z87.1-2010, American National Standards Institute's Standard for Eye and Face Protection.

ANSI guaranteed minimum resistance of the protective eyewear against everyday risks including dropping the protective eyewear onto the ground, ageing by light exposure, exposure to heat or corrosion etc. Maximum protection for glasses. Use for high speed particles at extreme temperatures.

CLEANING AND STORAGE

CLEANING: The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system.

MAINTENANCE: Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles or goggles in a microfiber pouch or rigid case.

STORAGE: All products must be stored in a dry and clean environment.
